

## Michael K. Eng, MD FRCSC

Urologist/ Renal Transplant Surgeon, Providence Health Care,  
Vancouver, BC  
Clinical Instructor, Department of Urologic Sciences, UBC

MD- University of Calgary 2002  
FRCSC (Urology) – University of British Columbia 2007  
Minimally Invasive Urology Fellowship, University of Chicago, Chicago,  
IL 2008  
Renal and Pancreas Transplantation Fellowship, St. Vincent Medical  
Center, Los Angeles, CA 2009

Originally from Calgary, Alberta, Dr. Michael Eng is a graduate of the UBC Urology Residency Program in 2007. He practices Urology and Renal Transplantation at Providence Health Care in Vancouver. He is primarily based at St. Paul's Hospital but also works at Mount Saint Joseph's Hospital.

Dr. Eng completed a Minimally Invasive Urology Fellowship at the University of Chicago, focusing on robotic and laparoscopic surgery for the management of prostate, renal and bladder cancers. In addition to its internationally-recognized expertise in laparoscopic partial nephrectomy for the management of small renal masses, the University of Chicago currently has the 6<sup>th</sup> and 7<sup>th</sup> largest volume program for robotic-assisted prostatectomy in the US and world, respectively.

Dr. Eng subsequently completed a Transplantation Fellowship at St. Vincent Medical Center in Los Angeles, which is one of the largest Kidney and Pancreas Transplantation programs in Southern California.

His areas of interest include:

- Renal transplantation
  - Laparoscopic donor nephrectomy
  - Living and deceased donor renal transplant
  - Abdominal organ procurement
- Robotic and laparoscopic urologic oncology
  - Laparoscopic partial nephrectomy
  - Laparoscopic radical nephrectomy & nephroureterectomy
  - Laparoscopic renal cryoablation
  - Robotic-assisted laparoscopic prostatectomy
  - Robotic-assisted laparoscopic cystectomy
- Minimally invasive urology
  - Laparoscopic pyeloplasty
  - Laparoscopic adrenalectomy
  - Retroperitoneal laparoscopy
