Dr. Afshar is the director of research of the Division of Urology at the BC Children's Hospital. His main research interest is in surgical clinical trials, outcome research and urologic applications of new technologies.

Dr. Afshar is a graduate of Tehran University of Health Sciences. He finished Medical School in 1991 as the top graduate of his class. He completed the UBC residency program in Urology in 2002. This was followed by a two-year fellowship in Pediatric Urology at the University of Toronto. He has a Masters degree in Clinical Epidemiology from University of British Columbia and is an associate member of the School of Population and Public Health at UBC. He is a Fellow of the Royal College of Surgeons of Canada since 2002 and American Academy of Pediatrics since 2006. He has been a member of the Department of Urologic Sciences since 2004.

Currently he is the only urologist performing advanced pediatric laparoscopic procedures in British Columbia. He has special interest in genital reconstruction and pediatric renal transplant.
